

RICH LOOT FOUND; NEW THEFT FOILED

**Alleged Tire Thieves Taken
When Watchman Says They
Plotted With Him**

DETECTIVE ALSO ACCUSED

The police of the Tenth and Burtonwood streets station last night foiled a plot to steal \$10,000 worth of automobile tires from the Keystone Tire Co., 1810 Callowhill street, and later recovered \$200,000 worth of loot in a warehouse of the alleged robbers on Water street above Market.

The loot was said to include part of \$30,000 worth of tires stolen May 19, from the Keystone Co.

Four men were arrested in connection with last night's attempted robbery.

According to the police, William Brown, of Percy street near Callowhill, a watchman for the tire concern, told Lieutenant Walsh, of the Tenth and Burtonwood streets station, it was planned to rob the Keystone store a second time last night.

Lieutenant Walsh and eleven detectives went to the tire shop and discovered a motortruck in front, loaded with ninety-five tires.

Charles Solomon, of Carpenter street near Fifth, and Sidney Kaplan, of Sixth and Tasker streets, were arrested, charged with robbery. The detectives also arrested Brown, who told them he had been given \$500 by the robbers when they arranged that he should be tied to a chair and struck over the head, so it would appear he had resisted the robbery.

Patrick Kelly, of Windsor square, a detective for the American Railway Co., was arrested, charged with conspiracy to commit robbery when Brown at first attempted to fix responsibility for the robbery on him. Kelly was later released on a copy of the charge. He denied all knowledge of the robbery, and Lieutenant Walsh believes he was not involved.

The police say the robbery plan was conceived several weeks ago.

Solomon and Kaplan are alleged to have confessed their plan. They said Brown had agreed to go through with the plan of gagging and binding him, but at the last minute lost his nerve. They gave the address of the warehouse on Water street where silks, cloth and automobile tires and parts were found.

BRIDGE REPORT IS READY

Engineers Will Present It to Commission June 9

The Board of Engineers of the Delaware River Bridge Commission has finished its report, which will be submitted at the next session of the Commission, June 9. Six concerns have been invited to submit bids for printing the report in book form.

It will contain recommendations as to the site, location, type and other details for the proposed bridge, and includes a number of plans, sketches and diagrams, together with important statistics and data.

Secretary Costello is sending members of the commission copies of the minutes of the last session.
